IMPORTANT:

Review the language of the subject.

The student can only take subjects from the semester they are coming. Some subjects are only offered one single semester.

Students staying the whole year will need to choose all subjects for both semesters during the registration process at the beginning (September/October).

The student coming on the ERASMUS Exchange modality will need to choose a minimum of 30 credits. The student coming on the Bilateral Agreement Exchange modality will need to choose a minimum of 20 credits.

Schedule overlaps will not be allowed in the selected subjects.
